

Brief CV

Name/中文姓名	Wei hu Zhao	Gender	Male	Photo
Title (Pro./Dr.)	Dr.	Country	China	
Phone Number		WeChat ID		
Email		QQ	None	
University/Department	College of Information and Communication, National University of Defense Technology			
Personal Web Sites	None			
Research Area	The application of Swarm Intelligent Optimization and Machine Learning			
Brief introduction of research experience: Dr. Wei hu Zhao received the Ph.D of Communication and Information System from Air Force Engineering University in 2014, and the research area is the application of Swarm Intelligent Optimization and Machine Learning in recent years. During his master's degree, mainly studied the network bandwidth prediction method based on machine learning. He mainly researched the satellite resource scheduling method based on Swarm intelligence optimization algorithm. Have participated in and presided over several national or provincial projects, and published more than 30 papers in journals and conferences.
