Research Area	Radar Signal Processing, Target detection and recognition, Image Processing and Analysis			

Brief introduction of your research experience:

Gong Zhang received the Ph.D. degree in electronic engineering from the Nanjing University of Aeronautics and Astronautics (NUAA), Nanjing, China, in 2002.

From 1990 to 1998, he was a Member of Technical Staff at No724 Institute China Shipbuilding Industry Corporation (CSIC), Nanjing, China.

Since 1998, he has been with the School of Electronic and Information Engineering at NUAA, where he is currently a Professor. His research interests include radar signal processing and classification recognition. Dr. Zhang is a member of Committee of Electromagnetic Information, Chinese Society of Astronautics (CEI-CSA), a member of editorial board for Journal of Systems Engineering and Electronics, First and second Editorial Committee of Journal of Radar, China and a Senior Member of the Chinese Institute of Electronics.

His research interests include signal processing for radar, and sensor processing, statistical and array signal processing, applications of linear algebra and optimization methods in signal processing, estimation and detection theory, sampling theory, and cooperative and cognitive systems.
